

## Replacement Air Cleaner Elements.

Dear Turbo Colleagues, Honda has stopped producing Air Cleaner Elements for the Honda CX500T/650T Motorcycles (17217-MC7-000).

Searching the Internet resulted in finding a company, producing after market Air Cleaner Elements, fitting our bikes.

It is:

**Moto Air Holland**, Poppenbouwing 15, 4191 NZ Geldermalsen, The Netherlands.

Website ([www.motoair.nl](http://www.motoair.nl)), mail ([info@motoair.nl](mailto:info@motoair.nl)).

The

Moto Air part number is **2054**.

Ordering the elements is via ([www.motoair.nl/contact](http://www.motoair.nl/contact)) or via ([info@motoair.nl](mailto:info@motoair.nl)).

Please add the following information:

- part number 2054,
- the desired number of elements,
- shipping address.

Ordering is also possible via (foreign) dealers, mentioned under ([www.motoair.nl/english/importers/](http://www.motoair.nl/english/importers/)).

The Air Cleaner material is resistant to the oil as given in the Honda Workshop Manual (gear oil, SAE 80 - 90).

In addition; Moto Air also supplies suitable oil for oiling / re-oiling the Air Cleaner Element.

*Another (small) parts problem solved!*

Greetings from,  
Ko Maljaars, The Netherlands.  
(HFTC parts commission).
